

Technical requirements - ENGEL 20 min pop-up version

The venue needs to provide a stage with sound system.

We also need a general light setup if we are performing after dark.

We don't bring our own technician, so please provide a technical person who runs the sound (and light if necessary) during our performance.

Please provide a dressing room where we can safely leave our things and a warmup space.

STAGE SETUP

- Dimensions: Width/Length 10m x 10m (minimum: 8m x 8m). 5 meters unobstructed height
- Floor: Even, wooden (sprung) floor, covered by clean Marley dance floor – or equivalent
- Audience: We play frontal. The audience can also be placed on the sides, but not in the back
- We can not perform on wet floor or under extreme weather conditions

TECHNICIAN

- Needs to take care of the sound system and light setup
- Needs to learn two sound cues (rehearsal time 15 min)

WE BRING

- Costumes
- Sound files on a USB stick
- (We can bring a laptop if this is communicated in advance)
- Performers 😊

Kind Regards,

Marta & Kim
